## Banks & Their Mobile Banking Applications

**Mobile Banking** – It refers to the use of a smartphone or other cellular device to perform online banking tasks like **obtaining account balance information** and **lists of latest transactions, electronic bill payments, remote check deposits, P2P payments**, and funds transfers between a customer's or another's accounts, **monitoring account balances**, transferring funds between accounts and **locating an ATM**.

**UPI - Unified Payments Interface (UPI)** is a system that **powers multiple bank accounts into a single mobile application** (of any participating bank), merging several banking features, seamless fund routing & merchant payments into one hood. It also caters to the “Peer to Peer” collect request which can be scheduled and paid as per requirement and convenience. Most Bank provides their own UPI App for different Operating Systems viz. Android, Windows and iOS mobile platform(s).
