Q.17	On a particular day each of Danny, Edwin and Fahim sold three types of pens from their respective shops. As a coincidence, each of them sold an identical number of pens of Type A, an identical number of pens of Type B and an identical number of pens of Type C. However, the numbers of pens of each type that were sold were all different from one another. Also, the three sellers sold each of the types of pens at different prices per unit.
	Assertion (A): It is possible that Danny sold each pen of Type A at a profit of Rs 2, each pen of Type B at a loss of Re 1, and each pen of Type C at a loss of Rs 12 and made an overall profit of Rs 8; Edwin sold each pen of Type A at a profit of Rs 2, each pen of Type B at a loss of Rs 6, and each pen of Type C at a loss of Rs 6 and made an overall profit of Rs 14; and Fahim sold each pen of Type A at a profit of Re 1, each pen of Type B at a loss of Rs 6 and made an overall profit of Rs 14; and Fahim sold each pen of Type A at a profit of Re 1, each pen of Type B at a profit of Re 1, and each pen of Type C at a loss of Rs 3 and made an overall profit of Rs 27.
	Reason (R): Framing and solving the three possible linear equations we will find that we get a unique solution.

On a particular day each of Danish, Ethan and Farhan sold three types of pens from their respective shops. Danish and Ethan sold an identical number of pens of Type A while Farhan sold twice as many pens of Type A as Danish and Ethan together sold. The ratio of the numbers of pens of Type B sold by Danish, Ethan and Farhan was 3 : 4 : 1 respectively, and Ethan and Farhan sold an identical number of pens of Type C each, while Danish sold thrice as many pens of Type C as each of Ethan and Farhan sold. The three sellers sold each of the types of pens at different prices per unit.

Assertion (A): It is possible that Danish sold each pen of Type A at a loss of Rs 2, each pen of Type B at a profit of Rs 4, and each pen of Type C at a loss of Rs 5 and made an overall profit of Rs 144; Ethan sold each pen of Type A at a profit of Rs 5, each pen of Type B at a loss of Re 1, and each pen of Type C at a profit of Rs 7 and made an overall profit of Rs 13; and Farhan sold each pen of Type A at a profit of Re 3, each pen of Type B at a profit of Re 4, and each pen of Type C at a loss of Rs 6 and made an overall profit of Rs 240.

Reason (R): Framing and solving the three possible linear equations we will find that we get a unique solution.

## Ans $\times$ 1. Assertion (A) is true and Reason (R) is false.

Q.10 Read the following information carefully and answer the question that follows. You must assume everything in the statement to be true and on the basis of the information given in the statement, decide which of the course of action not logically follow for pursuing. Statement:- The Earth's fever is rising, fueled by our carbon footprint. Extreme weather events, rising sea levels, and ecosystem disruptions are stark reminders of the urgency to act. From individual choices like sustainable transportation and energy conservation to collective efforts like policy changes and community initiatives, we must all become stewards of our planet.

#### Ans 🗙 1.

We should design and support projects that are adaptable to the impacts of climate change, ensuring sustainability and reducing vulnerability to extreme weather events.

### **V** 2.

In recognizing the vital role of ecosystems in mitigating climate change, we should not pledge to support large-scale tree planting initiatives and conservation efforts.

## 🗙 З.

India should participate in global agreements and pushing for carbon pricing mechanisms, we should contribute to a unified, effective response to the climate crisis.

## **X** 4.

Government should take responsibility of arranging for more waste disposal systems for these factories.

Sentence: Nay, education would even help them in the performance of the narrowest sphere of womanly duty. Paragraph: It is the height of selfishness for men, who fully appreciate in their own case the great advantages of a good education, to deny these advantages to women. (1) There is no valid argument by which the exclusion of the female sex from the privilege of education can be defended. (2) It is argued that women have their domestic duties to perform and that if they were educated, they would bury themselves in their books and have little time for attending to the management of their households.(3) But women are no more liable to this temptation than men and most women would be able to do their household work all the better for being able to refresh their minds in the intervals of leisure with a little reading. (4) For, education involves knowledge of the means by which health may be preserved and enables a mother to consult such modern books as will tell her how to rear up her children into healthy men and women and skillfully nurse them when disease attacks her household.
