

1. Global Financial Stability Report (GFSR)

Publisher: IMF

Overview: The April 2025 edition of the GFSR highlights a significant increase in global financial stability risks, primarily due to tighter financial conditions and escalating trade and geopolitical uncertainties. Key vulnerabilities identified include high valuations in certain markets, the interconnectedness of highly leveraged financial institutions with banking systems, and the potential for market turmoil and challenges to debt sustainability among highly indebted sovereigns.

Relevance for RBI Grade B 2025: Understanding these global financial risks is crucial for comprehending the broader economic environment in which India's monetary policy operates. This knowledge aids in analyzing the potential impacts of international financial instability on India's economic and financial systems.

2. Global Economic Prospects Report

Publisher: World Bank

Overview: The June 2025 report projects global growth to weaken to 2.3% in 2025, a significant downgrade from previous forecasts. This slowdown is attributed to rising trade barriers and heightened policy uncertainty. Additional risks include weaker-than-expected growth in major economies, worsening conflicts, and extreme weather events.

Relevance for RBI Grade B 2025: This report provides insights into global economic trends that can influence India's economic policies and strategies. Understanding these dynamics is essential for analyzing the potential effects on India's growth prospects and policy decisions.

3. Global Trade Outlook

Publisher: WTO / International Trade Organizations

Overview: According to the WTO's April 2025 report, global merchandise trade is expected to decline by 0.2% in 2025, with a 2.5% recovery projected for 2026. This downturn is primarily due to weaker global demand and the impact of trade restrictions.

Relevance for RBI Grade B 2025: An understanding of global trade patterns is vital for assessing the external factors affecting India's trade balance and economic stability. This knowledge aids in formulating policies to mitigate adverse impacts on India's economy.

4. Management of Foreign Exchange Reserves

Publisher: IMF / RBI

Overview: The IMF's Currency Composition of Official Foreign Exchange Reserves (COFER) data for Q1 2025 indicates revisions to address reporting errors involving the Australian dollar and the Swiss franc. These revisions have a marginal impact on total reserves.

Relevance for RBI Grade B 2025: Understanding the composition and management of foreign exchange reserves is essential for analyzing India's monetary policy and its capacity to manage external shocks. This knowledge aids in assessing the effectiveness of India's foreign exchange strategies.

5. Human Development Report 2025

Publisher: UNDP

Overview: The 2025 Human Development Report explores the implications of artificial intelligence (AI) on human development, focusing on how AI can enhance human choices and freedoms. It emphasizes the importance of ensuring that AI advancements contribute positively to human development goals.

Relevance for RBI Grade B 2025: This report provides insights into the intersection of technology and human development, which is crucial for understanding the socio-economic implications of technological advancements in India. It supports the formulation of policies that leverage technology for inclusive development.

6. Global Gender Gap Report

Publisher: World Economic Forum

Overview: The 2025 report indicates that the global gender gap has closed by 68.8% across 148 economies. While progress continues, full gender parity is still over a century away.

Relevance for RBI Grade B 2025: Understanding gender disparities is essential for analyzing the socio-economic factors that influence India's development policies. This knowledge aids in promoting gender-inclusive economic growth and policy formulation.

12. Global Hunger Index 2025

Publisher: IFPRI / Concern Worldwide

Overview: The Global Hunger Index (GHI) measures hunger worldwide using indicators like undernourishment, child stunting, wasting, and child mortality. The 2024 report shows India's GHI score as 27.3, categorized as "serious," highlighting challenges in nutrition, inequality, and food security.

Relevance for RBI Grade B 2025: Understanding the GHI is crucial for RBI Grade B aspirants, as it provides insights into the socio-economic factors influencing India's development policies. The report's focus on child nutrition and mortality rates offers valuable data for analyzing the effectiveness of public health and nutrition programs. Additionally, the GHI's assessment of hunger levels can inform discussions on poverty alleviation strategies and economic planning.
