RRB NTPC CBAT Syllabus

Test	Details
Intelligence Test	Candidates must identify a different figure out of the five options shared.
Selective Attention Test	This is conducted to check the concentration level of a candidate while performing a specific task amidst distractions.
Spatial Scanning Test	The scanning test examines how accurately candidates can observe and match objects.
Information Ordering	This test evaluates the candidate's ability to arrange specific items in a given order or sequence.
Personality Test	The board assesses the candidate's total personality in this stage by questioning them on their preferences, ideas, and more.
