

IMPORTANT NOTICE

Availability of Mock Test for Computer-Based Examination.

The Staff Selection Commission (SSC) has made available a Mock Test on its official website with effect from 18-07-2025. This initiative is aimed at familiarizing candidates with the process and interface of the Computer-Based Test (CBT).

Candidates are advised to note the following important points:

- The mock test is designed solely for familiarization purposes with the CBT environment.
- The format of the mock test may differ from the actual CBT format.
- The questions in the mock test are sample-based and may be repeated. These are not indicative of the actual examination content.
- The mock test should not be treated as a practice paper or simulation of the actual examination.

Candidates are encouraged to make use of this facility to become comfortable with the CBT process ahead of the actual examination.

All candidates are advised to carefully go through the examination-specific notifications and visit the official SSC website regularly for updates and further information.
