सी०ई०एन० ०९/२०२५-७ वें सीपीसी वेतन मैट्रिक्स के लेवल १ में विभिन्न पदों हेतु

CEN 09/2025 - Various Posts in Level 1 of 7th CPC Pay Matrix

Test Date	03/08/2026
Test Time	12:45 PM - 2:15 PM
Subject	RRB Level 01 Stage I 2025

Q.1 If a resistor is connected to a voltage source and the resistance is halved while the voltage remains constant, what happens to the heat produced in a fixed time?

- Ans A). The heat produced increases to twice its previous value
B). The heat produced decreases to half its previous value
C). The heat produced increases to four times its previous value
D). The heat produced remains unchanged

Correct Answer: A

Q.2 A student places a candle at a distance greater than twice the focal length from a convex lens. She observes the image formed on a screen. Which of the following best describes the image's nature, position, and size?

- Ans A). The image is virtual, inverted, formed at the focal point, and the same size as the object.
B). The image is real, inverted, formed between the focal point and twice the focal length, and smaller than the object.
C). The image is real, erect, formed beyond twice the focal length, and equal in size to the object.
D). The image is virtual, erect, formed on the same side as the object, and larger than the object.

Correct Answer: B

Q.3 What does a higher degree of closeness of magnetic field lines indicate?

- Ans A). The field lines are about to cross
B). Weaker magnetic field at that region
C). Stronger magnetic field at that region
D). Presence of electric field

Correct Answer: C

Q.4 Which among the following molecular formulae of organic compounds does NOT represent a ring structure?

- Ans A). C_6H_{10}
B). C_6H_6
C). C_6H_{14}
D). C_6H_8

Correct Answer: C

Q.5 Why can you hear a train approaching when you put your ear on the railway track?

- Ans A). Sound moves through the air above the track
B). Sound travels efficiently through solid steel rails to your ear
C). Rails vibrate more loudly than air does
D). Vibrations travel only along the surface of the rails

Correct Answer: B

Q.6 A pregnant woman in her ninth week visits a clinic for a check-up. The doctor explains that the developing baby is now called a foetus and will continue organ development. Which trimester is she currently in?

- Ans A). First trimester
B). Later stage
C). Second trimester
D). Third trimester

Correct Answer: A

Q.7 Where is the intercalary meristem commonly located in plants?

- Ans A). At the base of leaves or internodes
B). At the edge of leaves
C). On lateral sides of the stem
D). At the tip of roots and shoots

Correct Answer: A

Q.8 Why do the ventricles of the heart have thicker muscular walls compared to the atria?

- Ans A). They separate oxygenated and de-oxygenated blood B). They store more blood before each contraction
C). They pump blood to organs throughout the body D). They require more nerves for neural control

Correct Answer: C

Q.9 A new microorganism is found that is unicellular, prokaryotic, and lacks a membrane-bound nucleus but can perform photosynthesis. According to the five kingdom classification, which kingdom is it placed in?

- Ans A). Plantae B). Fungi C). Protista D). Monera

Correct Answer: D

Q.10 A glass vessel contains a chemical reaction where no gas escapes or enters. According to the Law of Conservation of Mass, which situation is most accurate?

- Ans A). The total mass before the reaction is less than that after the reaction. B). The total mass after the reaction increases.
C). The total mass before and after the reaction remains unchanged. D). The total mass after the reaction decreases.

Correct Answer: C

Q.11 A shiny iron nail was left in four different conditions for several days.

- I. Dry air in a sealed container
II. Water containing dissolved oxygen
III. Water that had been boiled and then covered with oil
IV. Moist air

In which of the above conditions will rusting of iron most likely occur?

- Ans A). II and IV only B). I, II and IV C). II, III and IV D). I and III only

Correct Answer: A

Q.12 A higher concentration of H^+ ions in a solution corresponds to:

- Ans A). Neutral pH B). Lower pH value C). Constant pH D). Higher pH value

Correct Answer: B

Q.13 If an object's mass is doubled while the applied force remains constant, what happens to its acceleration according to the formula for force?

- Ans A). The acceleration is doubled B). The acceleration remains unchanged C). The acceleration becomes zero
D). The acceleration is halved

Correct Answer: D

Q.14 Which of the following is an example of kinetic energy?

- Ans A). A parked bicycle B). A flying bird in the sky C). A book on a shelf D). An apple hanging from a tree

Correct Answer: B

Q.15 Which of the following mixtures best demonstrates a heterogeneous mixture at the macroscopic level?

- Ans A). Nitrogen and Oxygen B). Sand and Water C). Salt and water D). Sugar and water

Correct Answer: B

Q.16 Which statement best describes the electrical conductivity of non-metals in their pure form?

- Ans A). Non-metals do not conduct electricity B). Non-metals conduct electricity as metals do C). Non-metals conduct electricity efficiently
D). Non-metals have high electrical conductivity

Correct Answer: A

Q.17 From a distance-time graph, how can the uniform speed of an object be calculated?

- Ans A). By measuring the total distance only B). By measuring the total time only C). By measuring the area under the graph
D). By measuring the slope of the graph

Correct Answer: D

Q.18 An element has an atomic number of 17. Based on the arrangement of charged particles in its atom, which statement best explains the number of electrons in its neutral state?

- Ans A). It contains 17 electrons to match the 17 neutrons present. B). It contains 8 electrons in the innermost shell alone.
C). It has more electrons than protons due to its atomic mass. D). It has 17 electrons to balance the 17 protons present.

Correct Answer: D

Q.19 Arrange the following steps of the water cycle in the correct order:

1. Condensation
2. Evaporation
3. Precipitation
4. Collection in water bodies

- Ans A). $3 \rightarrow 2 \rightarrow 1 \rightarrow 4$ B). $2 \rightarrow 3 \rightarrow 1 \rightarrow 4$ C). $1 \rightarrow 2 \rightarrow 3 \rightarrow 4$ D). $2 \rightarrow 1 \rightarrow 3 \rightarrow 4$

Correct Answer: D

Q.20 Which part of the human brain is mainly involved in maintaining body balance?

Ans A). Medulla B). Cerebellum C). Pons D). Cerebrum

Correct Answer: B

Q.21 While opening a bottle cap using a bottle opener, the resistance offered by the cap acts as the ____.

Ans A). Effort B). Energy source C). Load D). Machine

Correct Answer: C

Q.22 Which tissue is absent in the touch response of a sensitive plant?

Ans A). Epithelial tissue B). Vascular tissue C). Ground tissue D). Nervous tissue

Correct Answer: D

Q.23 Why do multicellular organisms need specialized systems for the intake of energy and exchange of materials, unlike unicellular organisms?

Ans A). Single-celled organisms do not require cellular energy to survive B). They are much heavier than single-celled organisms
C). They are completely unable to move from one place to another D). Most internal cells lack direct contact with the external environment

Correct Answer: D

Q.24 A student places an object 18 cm from a converging lens of focal length 12 cm. The image formed is real. What is the magnification produced by the lens?

Ans A). - 2 B). - 1.5 C). + 1.5 D). + 2

Correct Answer: A

Q.25 A student burns ethanol in air and observes a blue flame. Which statement best explains this observation?

Ans A). Impurities in ethanol cause the blue color of the flame. B). Incomplete combustion leads to a blue flame because of less oxygen.
C). Complete combustion produces a blue flame due to sufficient oxygen supply. D). Ethanol produces a red flame when burned in air.

Correct Answer: C

Q.26 Rajesh started a business with ₹50,000. In the first year, he made a profit of 20%. He reinvested all the money (original + profit) in the second year. In the second year, he suffered a loss of 15%. At the end of the second year, he sold his remaining business assets and received an additional ₹8,000 as goodwill. What is his overall profit or loss percentage on his original investment?

Ans A). 18% profit B). 15% loss C). 20% profit D). 12% loss

Correct Answer: A

Q.27 In a circle of radius 5 cm, AB and AC are two equal chords such that $AB = AC = 7$ cm. What is the length of the chord BC? (Rounded off to 3 decimal places.)

Ans A). 9.996 cm B). 9.990 cm C). 9.998 cm D). 9.992 cm

Correct Answer: C

**Q.28 The bar graph below shows the sales (in thousands) of cellular phones from 2018 to 2023. Study the graph and answer the question.
Find the average sales of cellular phones (in thousands) from 2021 to 2023.**

Ans A). 25 B). 28 C). 27 D). 26

Correct Answer: C

Ans A). 5 B). 4 C). 2 D). 6 **Correct Answer: C**

Ans A). III B). I C). IV D). II **Correct Answer: C**

Ans A). 2 years B). 3 years C). 2.5 years D). 3.5 years **Correct Answer: B**

Ans A). Rs. 900 B). Rs. 1100 C). Rs. 1450 D). Rs. 1200 **Correct Answer: C**

Ans A). 48 B). 42 C). 36 D). 24 **Correct Answer: C**

Ans A). 46 B). 39 C). 42 D). 50 **Correct Answer: D**

Ans A). 298 B). 302 C). 292 D). 294 **Correct Answer: A**

Ans A). 2244 cm² B). 2750 cm² C). 1283 cm² D). 3300 cm² **Correct Answer: A**

Ans A). 300 B). 320 C). 250 D). 280 **Correct Answer: C**

Ans A). decrease by ₹908 B). decrease by ₹910 C). increase by ₹909 D). increase by ₹913 **Correct Answer: B**

Ans A). 183 m B). 168 m C). 170 m D). 178 m **Correct Answer: C**

Ans A). 1,450 B). 1,150 C). 1,250 D). 1,350 **Correct Answer: C**

Q.41	Given that $17^{0.3} = x$, $17^{0.5} = y$ and $x^z = y^5$, then the value of z is close to:			
Ans A).	10.33	B). 8.33	C). 8.67	D). 7.67
Correct Answer: B				
Q.42	Amit and Bharat started a business with investments of ₹40,000 and ₹55,000, respectively. After 6 months, Chetan joined with ₹60,000. If the annual profit is ₹47,400, what is Bharat's share?			
Ans A).	₹20,756	B). ₹20,886	C). ₹20,716	D). ₹20,856
Correct Answer: D				
Q.43	From a point on the ground, the angle of elevation to the top of a tree is 45° . If the point is 20 m away from the base, what is the height of the tree?			
Ans A).	18 m	B). 15 m	C). 20 m	D). 22 m
Correct Answer: C				
Q.44	The production of a factory increased from 1,200 units to 1,500 units. Find the percentage increase in production.			
Ans A).	20%	B). 22%	C). 25%	D). 30%
Correct Answer: C				
Q.45	If 2 liters of juice costing ₹30 per liter are mixed with 8 liters of juice costing ₹50 per liter, what is the price per liter (in ₹) of the mixture?			
Ans A).	46	B). 50	C). 48	D). 44
Correct Answer: A				
Q.46	Simplify: $(7^7 \times 7^{-5} \div 7^{-4}) \div \left(7^0 \times 7^{-2} \text{ of } \left(\frac{1}{7}\right)^{-5}\right)$			
Ans A).	49	B). 343	C). 1	D). 7
Correct Answer: B				
Q.47	Riya can complete a piece of work in 15 days, while Neha can complete the same work in 20 days. If both of them work together, how many days will they take to complete the work?			
Ans A).	$\frac{29}{3}$ days	B). $\frac{75}{8}$ days	C). $\frac{60}{7}$ days	D). $\frac{35}{4}$ days
Correct Answer: C				
Q.48	For a cone, the curved surface area is two-thirds of its total surface area. What is the ratio of its slant height to its radius?			
Ans A).	3 : 1	B). 1 : 2	C). 1 : 1	D). 2 : 1
Correct Answer: D				
Q.49	The difference between compound interest and simple interest at a rate of 5% per annum over a period of 2 years on an amount of ₹15,000 is:			
Ans A).	₹41.90	B). ₹33.60	C). ₹42.10	D). ₹37.50
Correct Answer: D				
Q.50	Sam covered a certain distance at a certain speed. Had he moved 4.5 kmph faster, he would have taken 30 minutes less. If he had moved 4.5 kmph slower, he would have taken 35 minutes more. Find the distance covered by him.			
Ans A).	411.5 km	B). 429.5 km	C). 409.5 km	D). 420 km
Correct Answer: C				
Q.51	Refer to the given letter and symbol series and answer the question that follows. Counting to be done from left to right only. (Left) A S # P L \$ % T U I \$ * M < > S + A @ * & A W ? % A Z Y & @ E \$ R (Right) How many such consonants are there, each of which is immediately preceded by a symbol and immediately followed by a vowel?			
Ans A).	1	B). 3	C). 2	D). 4
Correct Answer: A				

Q.52 In a certain code language,
A + B means 'A is the mother of B',
A – B means 'A is the brother of B',
A × B means 'A is the wife of B',
A % B means 'A is the father of B', and
A # B means 'A is the daughter of B'.

How is Q related to G if 'N # G × L % R % Q # K'?

Ans A). Husband's mother B). Husband's sister C). Son's daughter D). Brother's wife

Correct Answer: C

Q.53 Based on the English alphabetical order, three of the following four letter-cluster pairs are alike in a certain way and thus form a group. Which is the one that does not belong to that group?
(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter cluster.)

Ans A). GH - KL B). JK - NK C). BC - FG D). MN - QR

Correct Answer: B

Q.54 Refer to the following letter, symbol series and answer the question.

(Left) B B H J \$ H & J K + ? N + ? \$ & H ^ G # (Right)

If all the letters are dropped from the series, which of the following will be seventh from the right?

Ans A). + B). = C). ? D). #

Correct Answer: C

Q.55 What will come in place of the question mark (?) in the following equation if '+' and '-' are interchanged and '×' and '÷' are interchanged?
 $35 \times 7 \div 9 - 28 + 31 = ?$

Ans A). 42 B). 38 C). 44 D). 40

Correct Answer: A

Q.56 This question is based on the five, three-digit numbers given below.

(Left) 649 782 415 563 238 (Right)

(Example- 697 – First digit = 6, second digit = 9 and third digit = 7)

What will be the sum, if the third digit of the second number from left is added to the first digit of the fourth number from left?

Ans A). 9 B). 8 C). 7 D). 6

Correct Answer: C

Q.57 Each of the digits in the number 546598492 is arranged in ascending order from left to right. What will be the sum of the digits that are third from the left and third from the right in the new number thus formed?

Ans A). 12 B). 11 C). 13 D). 10

Correct Answer: A

Q.58 Each vowel in the word DERVISH is changed to the letter immediately following it in the English alphabetical order and each consonant is changed to the letter immediately preceding it in the English alphabetical order. How many letters will appear exactly twice in the group of letters thus formed?

Ans A). One B). Two C). None D). Three

Correct Answer: C

Q.59 This question is based on the five, three-digit numbers given below.

(Left) 532 637 724 386 452 (Right)

(Example: 697 – First digit = 6, second digit = 9 and third digit = 7)

NOTE - All operations to be done from left to right.

If 2 is added to the first digit of every number, in how many numbers will the first digit be exactly divisible by the second digit?

Ans A). None B). One C). Three D). Two

Correct Answer: A

Q.60 What should come in place of the question mark (?) in the given series?

198 210 234 246 270 282 ?

Ans A). 306 B). 303 C). 311 D). 301

Correct Answer: A

Q.61 Based on the English alphabetical order, three of the following four letter-cluster pairs are alike in a certain way and thus form a group. Which letter-cluster pair DOES NOT belong to that group?
(Note: The odd one out is not based on the number of consonants/vowels or their position in the letter-cluster.)

Ans A). FJ–MQ B). SW–ZD C). HL–NU D). BF–IM

Correct Answer: C

Q.62 In this question, a question is followed by two statements numbered (I) and (II). You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and decide the appropriate answer.
Among 5 poles, F, R, H, U and T each having a different height, which pole is the tallest?
(I) F is shorter than R but taller than H
(II) H is taller than U but shorter than T

Ans A). Statement (I) alone is sufficient, but statement (II) alone is not sufficient.
B). Both statements (I) and (II) together are sufficient to answer the question.
C). Both statements (I) and (II) together are NOT sufficient to answer the question, but neither alone is sufficient.
D). Statement (II) alone is sufficient, but statement (I) alone is not sufficient.

Correct Answer: C

Q.63 In the following triads, each group of letters is related to the subsequent one following a certain logic. Select from the given options, the one which follows the same logic.

AGENT : EGTNA : TGANE
WORLD : RODLW : DOWLR

Ans A). CRAFT : ARCTF : TRCFA B). EARTH : RAHTE : HAETR C). CLOUD : LOUDC : COULD D). WATER : RATEW : TAWER

Correct Answer: B

Q.64 Below are given two sets of numbers. In each set of numbers, a certain mathematical operation on first number results in the second number. Similarly, certain mathematical operation on second number results in the third number and so on. Which of the given options follows the same set of operations as that followed in the question?
(NOTE – A two/three digit number cannot be broken into individual digits for operations; e.g., if 37 is followed by 10, the operation cannot be 3+7 as a two digit number cannot be broken into individual digits.)

2 – 6 – 12 – 20 ; 3 – 7 – 13 – 21

Ans A). 4 – 8 – 14 – 22 B). 7 – 11 – 15 – 21 C). 5 – 9 – 13 – 17 D). 6 – 10 – 16 – 22

Correct Answer: A

Q.65 What should come in place of ? in the given series based on the English alphabetical order?
ASW FPU KMS PJQ ?

Ans A). WGP B). VHO C). UGO D). XIQ

Correct Answer: C

Q.66 Each of T, R, O, U, B, L and E has an exam on a different day of a week starting from Monday and ending on Sunday of the same week. U has exam on Friday. Only two people have exam between E and U. Only four people have exam between L and E. T has exam immediately after R. O doesn't have exam on Monday. How many people have exam between O and B?

Ans A). Two B). One C). Four D). Three

Correct Answer: C

Q.67 Ajay starts driving his car towards the north. After driving 10 m, he turns towards the left and drives 30 m. He then turns towards the right and drives 20 m. He finally turns towards the left and drives 10 m. In which direction is he facing now? (All turns are 90-degree turns only unless specified.)

Ans A). East B). West C). North D). South

Correct Answer: B

Q.68 Six people, C, D, E, O, P and Q, are sitting in a row, facing north.
Only E sits to the left of D. Only three people sit between E and Q. Only C sits between O and Q.
How many people sit between P and O?

Ans A). One B). Two C). None D). Three

Correct Answer: B

Q.69 Seven boxes R, A, C, K, E, T and S are kept one over the other but not necessarily in the same order.
Only three boxes are kept below C. Only two boxes are kept between C and R. Only E is kept above S. K is kept at some place below T and at some place above A.
Which box is kept at second position from the bottom?

Ans A). C B). A C). R D). E

Correct Answer: B

Q.70 Select the pair which follows the same pattern as that followed by the two set of pairs given below. Both pairs follow the same pattern.
FSX : ANS
MVD : HQY

Ans A). JYA : ETV B). QFH : ODF C). IXZ : FUV D). HWY : DSU

Correct Answer: A

Q.71 A, G, H, P, S and Y live on six different floors of the same building. The lowermost floor in the building is numbered 1, the floor above it is numbered 2 and so on, till the topmost floor, which is numbered 6.
H lives on an even-numbered floor but not on floor number 4. Only two people live between H and P. A lives on an odd-numbered floor but not on the lowermost floor. Only two people live between A and Y. S lives immediately below A.
How many people live between G and S?

Ans A). Four B). Two C). Three D). One

Correct Answer: B

Q.72 Read the given statements and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statements.

Statements: Some books are papers. No book is a towel.
Conclusion (I): Some papers are towels.
Conclusion (II): No towel is a paper.

Ans A). Only conclusion (II) follows B). Only conclusion (I) follows C). Both conclusions (I) and (II) follow
D). Neither conclusion (I) nor (II) follows

Correct Answer: D

Q.73 15 is related to 46 following a certain logic. Following the same logic, 2 is related to 7. To which of the following is 8 related, following the same logic?
(NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 – Operations on 13 such as adding /subtracting /multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

Ans A). 27 B). 23 C). 29 D). 25

Correct Answer: D

Q.74 Each vowel in the word DRAFTED is changed to the letter immediately following it in the English alphabetical order and each consonant is changed to the letter immediately preceding it in the English alphabetical order. Which of the following letters will be fourth from the left in the new group of letters thus formed?

Ans A). G B). F C). E D). D

Correct Answer: C

Q.75 Read the given statement(s) and conclusions carefully. Assuming that the information given in the statements is true, even if it appears to be at variance with commonly known facts, decide which of the given conclusions logically follow(s) from the statement(s).

Statements:
Some laptops are watches.
No watch is a computer.

Conclusions:
(I) Some laptops are computers.
(II) Some watches are laptops.

Ans A). Only conclusion (II) follows B). Both conclusions (I) and (II) follow C). Neither conclusion (I) nor (II) follows
D). Only conclusion (I) follows

Correct Answer: A

Q.76 Eight people Akhil, Binod, Charu, Deepak, Ekta, Firoj, Gaurav and Hira are sitting in a row, facing north. Only three people sit to the left of Ekta. Binod is an immediate neighbour of Ekta and sits third to the right of Akhil. Deepak sits third to the left of Charu. Firoj is not an immediate neighbour of Charu. Charu sits second to left of Hira.
Who sits at the extreme left end of the line?

Ans A). Deepak B). Binod C). Akhil D). Firoj

Correct Answer: D

Q.77 Refer to the following number series and answer the question that follows (all numbers are single digit numbers only). Counting to be done from left to right only. (Left) 2 7 5 6 9 8 1 9 9 7 2 3 4 1 6 2 7 5 1 8 9 (Right) How many such odd digits are there, which are immediately preceded by an even digit and also immediately followed by a perfect square? (NOTE: 1 is also a perfect square.) Ans A). Two B). One C). Four D). Three Correct Answer: A
Q.78 Which of the following letter-clusters should replace # and % so that the pattern and relationship followed between the letter-cluster pair on the left side of :: is the same as that on the right side of :: ? # : HJF :: RTP : % Ans A). # = KJC , % = UML B). # = MKC , % = UKO C). # = EGC , % = UWS D). # = ELC , % = UWL Correct Answer: C
Q.79 In a certain code language, A + B means 'A is the wife of B', A – B means 'A is the sister of B', A × B means 'A is the father of B' and A ÷ B means 'A is the brother of B'. How is M related to S if 'M × N – O + P ÷ S'? Ans A). Mother's father B). Brother's wife's father C). Sister's husband D). Brother's son Correct Answer: B
Q.80 If + means -, - means ×, × means ÷, ÷ means +, then what will come in place of the question mark (?) in the following equation? 33 - 7 ÷ 81 + 44 × 22 = ? Ans A). 320 B). 301 C). 310 D). 305 Correct Answer: C
Q.81 What is the name of the AI-powered platform launched by Income Tax Department of India in April 2026 to simplify tax filing and provide 24×7 guidance? Ans A). Nir Saathi B). e-Tax Saathi C). Tax Saathi D). Kar Saathi Correct Answer: D
Q.82 Who was elevated to the post of Chief Justice of the Calcutta High Court in January 2026? Ans A). Justice Sujoy Paul B). Justice Radhika Sen C). Justice Krishna Rao D). Justice Arijit Banerjee Correct Answer: A
Q.83 In January 2026, the Ministry of Electronics and Information Technology (MeitY) launched "Param Shakti," an indigenously developed 3.1 Petaflop supercomputing system, at which premier institute? Ans A). Indian Institute of Technology (IIT) Madras B). Indian Institute of Technology (IIT) Delhi C). Indian Institute of Technology (IIT) Bombay D). Indian Institute of Science (IISc), Bengaluru Correct Answer: A
Q.84 Who among the following has won the Laureus World Sportswoman of the Year 2026 award? Ans A). Faith Kipyegon B). Aitana Bonmatí C). Katie Ledecky D). Aryna Sabalenka Correct Answer: D
Q.85 Operation Parhar, launched by Punjab Police in January 2026, was primarily aimed at addressing which of the following issues in the state? Ans A). Gangster networks B). Border infiltration C). Drug trafficking D). Cybercrime networks Correct Answer: A
Q.86 Which two weather phenomena did the 16th Finance Commission recommend adding to India's list of nationally notified disasters? Ans A). Dust storms and cloudbursts B). Heatwaves and lightning strikes C). Cold waves and hailstorms D). Glacial lake outbursts and mudslides Correct Answer: B
Q.87 At the 29th National Senior Federation Cup held in Ranchi during 2026, which Indian athlete set a new national record in the men's 100-metre event by clocking 10.09 seconds? Ans A). Animesh Kujur B). Manikanta Hoblihdhar C). Amlan Borgohain D). Gurindervir Singh Correct Answer: D

Q.88 Which union minister of India is the author of the book “Apnapan: Narendra Modi Sang Mere Anubhav” which was launched in May 2026?

Ans A). Shri Manohar Lal B). Shri Shivraj Singh Chouhan C). Shri Nitin Jairam Gadkari D). Shri Jagat Prakash Nadda

Correct Answer: B

Q.89 Which state hosted the inaugural edition of Khelo India Tribal Games from 25th March to 3rd April 2026?

Ans A). Haryana B). Punjab C). West Bengal D). Chhattisgarh

Correct Answer: D

Q.90 In March 2026, which country hosted the World Trade Organization’s 14th Ministerial Conference (MC14)?

Ans A). Vietnam B). Brazil C). Cameroon D). Morocco

Correct Answer: C

Q.91 Which of the following American civil rights leaders, known for his contributions to racial equality, social justice, and political activism in the United States, was reported to have passed away in February 2026?

Ans A). John Lewis B). Jesse Jackson C). Al Sharpton D). Andrew Young

Correct Answer: B

Q.92 Which place in Manipur experienced epicenter of an earthquake in April 2026?
