A question has been given in this question and a statement related to it. Read the passage carefully and review the statement based on it.

In the Udham Singh Nagar district of Uttarakhand, good olfactory power elephants are known as a boon for the police to curb the illegal liquor business. These animals discovered the lahan (the substance used for making liquor), which was kept hidden in the forest of Khatima in the district and searched and destroyed it. To prevent the raising of the police, the wine makers used to make wine by using deep drains, in the forests, or in the villages. Because it requires flow water for fermentation.

Lohan is closed by filling in barrel or polythene bags and pressed into soil for four to five days for fermentation. Khatima Police Station Inspector Yogesh Upadhyay said that elephants get the smell of this substance and reach that place. And they destroy barrels to drink this drug. He told that some traders make the scaffolding trees and keep the barrels there. But the police easily reach them. "We have destroyed thousands of liters of lahans in the last two-three months, which were stored in the barrels at scaffolds." Inspector Yogesh Upadhyay said. He said "Illegal businessmen had kept the barrels of lahns on trees to protect them from elephants, elephants searched for them and destroyed them to drink. This caused huge losses to alcohol manufacturers. "A rural said, "In villages, liquor is sold for 80-100 rupees per liter. Because this wine is cheaper than alcohol available in the market so people buy it knowing about its bad effect on health. Elephants are playing an important role in curbing this trade.

Read the given information carefully and answer the questions related to it.

Souji, Biju, Jai and Shyam, four friends live in a row with four houses located in the numbers 1, 2, 3 and 4. They are all related to different professions such as HR, auditor, manager and developer. The hobbies of each of them are different, like reading, listening to music, eating and shopping.

- i) The auditor who likes to read, does not live in house number 4.  
ii) who likes shopping, house number 3.  
iii) Biju likes to eat and he lives in house number 2.  
iv) HR does not like shopping or listening to music.  
v) Shyam is the manager and he resides in the house number four.

vi) Jai is not an auditor.

Who lives in house number 3?

According to the above arrangement which of the following statements is true?

- (A)  **Developer likes Shopping - (Alternative 1)**
- (B)  Biju is Auditor - (Alternative 2)
- (C)  Jai likes to read - (Alternative 3)
- (D)  Suzy house resides in number 3 - (Alternative 4)

A question has been given in this question and a statement related to it. Read the passage carefully and review the statement based on it.

In the Udham Singh Nagar district of Uttarakhand, good olfactory power elephants are known as a boon for the police to curb the illegal liquor business. These animals discovered the lahan (the substance used for making liquor), which was kept hidden in the forest of Khatima in the district and searched and destroyed it. To prevent the raising of the police, the wine makers used to make wine by using deep drains, in the forests, or in the villages. Because it requires flow water for fermentation.

Lohan is closed by filling in barrel or polythene bags and pressed into soil for four to five days for fermentation. Khatima Police Station Inspector Yogesh Upadhyay said that elephants get the smell of this substance and reach that place. And they destroy barrels to drink this drug. He told that some traders make the scaffolding trees and keep the barrels there. But the police easily reach them. "We have destroyed thousands of liters of lahans in the last two-three months, which were stored in the

barrels at scaffolds." Inspector Yogesh Upadhyay said. He said "Illegal businessmen had kept the barrels of lahns on trees to protect them from elephants, elephants searched for them and destroyed them to drink. This caused huge losses to alcohol manufacturers. "A rural said, "In villages, liquor is sold for 80-100 rupees per liter. Because this wine is cheaper than alcohol available in the market so people buy it knowing about its bad effect on health. Elephants are playing an important role in curbing this trade.
